

GPS Loss and Radio Blackouts Cripple Disaster Rescue

- Mountain valleys cut drone video feeds
- Dense trees block satellite GPS signals
- Single control towers cause mission failure
- Manual searching delays finding trapped victims
- Military drones cost over \$50,000 each

GOVT DISASTER
AUDIT

NDMA
REPORT

70% of single drones failed in mountain rescue operations.

"In the Kedarnath and Wayanad rescue missions, single commercial drones lost connection behind ridges and crashed under thick tree canopy."
