

GPS Loss and Radio Blackouts Cripple Disaster Rescue

- Mountain valleys cut drone video feeds
- Dense trees block satellite GPS signals
- Single control towers cause mission failure
- Manual searching delays finding trapped victims
- Military drones cost over \$50,000 each

NDMA
REPORT

**70% of single
drones failed in
mountain rescue
operations.**

*"In the Kedarnath
and Wayanad
rescue missions,
single commercial
drones lost
connection behind
ridges and crashed
under thick tree
canopy."*
